

I wish you could put this letter on your website as we so appreciated the fabulous caregivers you sent to care for Mal Toof. Mary Methfessel (twin sister to Betty Toof)

Geriatric Home Care Specialists sent us four caregivers who were all wonderful! Each one was so professional and had that loving, caring nature that helps so much when you are watching your loved one departing this earth.

Caniesha, was our week day caregiver. Her knowledge and dedication to my twin sisters 80 year old husband was a joy to watch. Caniesha had a special gift in speaking to him and letting him know everything she was doing so he just relaxed and enjoyed her company. Where my twin and I would get a "NO" from him, Caniesha would have immediate cooperation. It was amazing! Caniesha was also very gentle and would bathe and turn him so carefully. For an independant man she had the utmost respect for his privacy and he really appreciated that. He looked forward to her coming.

Leslie was our weekday night caregiver. Leslie was such a soft spoken, sweet, dedicated caregiver. She too felt like family to us because of the love and tenderness she expressed in her care. My twin felt so comfortable knowing Leslie was caring for her husband so she could sleep. Leslie and I were with my brother-in-law when he passed away. She was so helpful.

Yvette, was our last 24 hour weekend caregiver. She arrived as my brother-in-law turned for the worse. Yvette was filled with love, compassion and tenderness. You could feel all the past years of experience she had as she immediately took control of the situation in such a relaxed and professional manner our stress melted away. What a jewel Yvette was! She always knew what to do as my brother-in-law became bedridden.

I wanted to write this letter to let others looking for the best health care help they could find for their loved one, to contact this company. Geriatric Home Care is a company where you call back to their office to tell them how "wonderful the caregivers are" instead of how dissatisfied you are.
